Private concierge for racing and equestrian visits

Dear Racing or Equestrian Partner,

BlackTor supports owners, prospective buyers, sponsors and guests travelling for racing, bloodstock and equestrian events. Based in Plymouth, South Devon, we bring the discretion and etiquette of close protection to personal concierge and travel coordination.

For race meetings, we can coordinate airport reception, chauffeur-driven transfers and hospitality arrangements. For bloodstock sales, stud visits and meetings with trainers, we can bring appointments together in one itinerary and accompany clients between venues.

For show jumping, eventing and dressage, we can coordinate accommodation, guest transport and personal arrangements around competition schedules. We can also assist owners and guests attending polo, horse trials, private yard visits and equestrian hospitality events.

We work alongside your team and can liaise with your appointed horse transport and event providers where schedules overlap. Discreet close protection and secure transport for personal valuables can be arranged in advance, subject to local requirements.

If you have owners, buyers or guests visiting the UK, I'd be happy to discuss how BlackTor can support their visit.

Kind regards,
James Charlesworth
