Private clinic visits and personal escort

Dear Clinic, Patient Liaison Team or Private Client,

BlackTor provides discreet travel and personal support for clients attending private consultations, treatment appointments or follow-up visits. We work around the client's schedule and liaise with their clinic team or nominated representative as agreed.

We can meet clients at an airport, private aviation terminal or railway station, coordinate chauffeur transfers and accommodation, and accompany them to and from appointments. We can also help with arrangements for a relative or companion travelling with them.

Where a client needs support over several appointments or an extended stay, we can coordinate the itinerary and adapt arrangements as timings change. Our role is practical, non-clinical support. Any post-treatment travel or accompaniment is arranged in line with the clinic's guidance.

Based in Plymouth, South Devon, BlackTor supports clients across the South West and throughout the UK, including visitors arriving from overseas. I'd be happy to discuss an upcoming visit in confidence.

Kind regards,
James Charlesworth
