Private concierge for school and campus visits

Dear Admissions Team or Education Adviser,

Families coming to the UK to visit independent schools, boarding schools or universities often need to fit several appointments into a short stay. BlackTor can coordinate their travel and accompany them between visits, working alongside your team.

We can meet parents and their children at the airport or station, coordinate chauffeur-driven travel and accommodation, and plan routes around open days, interviews, tours and visits to boarding houses. We can also help with return travel and practical arrangements for enrolment visits.

We agree the itinerary and any safeguarding requirements in advance with the parent or guardian and the relevant team. Our role is to assist families with their visit and liaise with your nominated contact as arrangements change.

Based in Plymouth, South Devon, BlackTor offers a discreet point of contact and brings the professional etiquette of close protection to personal concierge. Support can be arranged for one appointment or a multi-day visit.

If you work with families travelling from overseas or elsewhere in the UK, I'd be happy to discuss where BlackTor could assist.

Kind regards,
James Charlesworth
