Private concierge and protection for your Alpine stay

Dear Guest or Travel Partner,

Whether you're taking the family to the Alps, hosting guests in a private chalet or travelling with friends for a few days on the slopes, BlackTor can look after the arrangements from your first arrival to the journey home.

I'm James Charlesworth, founder of BlackTor Protection Management in Plymouth, South Devon. I've worked with companies and individuals with ski resort experience. BlackTor brings the discretion, judgement and etiquette of close protection to a dedicated concierge service.

We can meet you at an airport, private aviation terminal or railway station, arrange chauffeur-driven transfers and coordinate with your chalet, hotel or travel team. We can also arrange ski hire, lift passes, instructors and guides, restaurant reservations, après-ski transport and activities for guests who prefer to spend the day off the slopes.

If you'd like personal accompaniment, we can escort guests to appointments, private functions or evenings in resort. By prior arrangement, we can provide chalet or residence security, support your family's safeguarding needs and coordinate secure transport for luggage, equipment or valuables. Discreet close protection is available by arrangement, subject to local requirements.

We can work directly with you or alongside your chalet host, hotel concierge or travel adviser. If you're planning an Alpine stay, I'd be happy to discuss privately where BlackTor can help, even if your dates are still taking shape.

Kind regards,
James Charlesworth
