Private concierge for weddings and celebrations

Dear Wedding Planner or Venue Team,

When guests are arriving from several airports, staying at different properties and attending more than one event, travel can take up a large part of a wedding weekend. BlackTor can coordinate those arrangements with your planning team.

We can meet guests on arrival, coordinate chauffeur-driven transfers and work with hotels or private residences on arrival times. On the day, we can help family members and designated guests get between accommodation, the ceremony and the reception.

For a weekend programme or private celebration, we can also arrange transport for dinners, outings and onward departures. Discreet personal accompaniment or close protection can be arranged in advance for the couple, family members or individual guests.

Based in Plymouth, South Devon, we bring the discretion and etiquette of close protection to guest-facing work. We liaise with your nominated contact and fit our support around the schedule and service expectations you have set.

If you are planning a wedding, private celebration or multi-day estate event, I'd be happy to discuss where BlackTor could assist.

Kind regards,
James Charlesworth
