Private arrivals and concierge for your sporting guests

Dear Shoot Organiser or Estate Manager,

A memorable sporting day begins with the welcome. The care your team takes over a day in the field deserves to be reflected in every part of your guests' visit, from the moment they land to their journey home.

I'm James Charlesworth, founder of BlackTor Protection Management. Based in Plymouth, South Devon, we provide private concierge, executive travel coordination and discreet close protection for sporting estates and their guests across the UK.

For guests arriving by private jet or helicopter, we can liaise with their flight team and your estate to arrange a discreet welcome at a private aviation terminal or designated helipad, with chauffeur-driven onward travel to the estate, lodge or hotel. We can also coordinate lodge stays, private dining and separate itineraries for accompanying partners and family members. Airport and rail transfers are available where preferred.

For guests travelling with their own sporting shotguns, we can liaise with your estate and a specialist provider to coordinate transport and handover, either alongside the guest's journey or ahead of their arrival, by prior arrangement.

Whether you are hosting a driven pheasant or partridge day, a grouse or duck shoot, or a private sporting weekend, we can act as a single point of contact for your guests. Dedicated concierge and discreet close protection can be tailored to each guest's public profile, business commitments and privacy preferences.

I'd welcome a brief conversation about how BlackTor could complement the hospitality your team provides on your next sporting day.

Kind regards,
James Charlesworth
