Private concierge for your superyacht visit, purchase and handover

Dear Yacht Owner or Prospective Buyer,

Whether you're commissioning a new superyacht and choosing its finishes, viewing an existing yacht you'd like to make your own, or getting a feel for how it handles on a sea trial, BlackTor tailors your stay to your needs.

I'm James Charlesworth, founder of BlackTor Protection Management. A close friend owns a superyacht he kept in Plymouth before moving it to the Balearics and later to Croatia. We cruised the English Riviera, the Balearics and the Croatian coast together. That gave me a first-hand appreciation of the care that goes into choosing a yacht. We bring that same care to your stay.

We can meet you on arrival, arrange accommodation and chauffeur-driven transfers, and liaise with your broker or shipyard to coordinate viewings, sea trials and appointments. Your dedicated point of contact can also arrange business meetings and personal appointments, with discreet accompaniment wherever you'd like our support.

If you'd like us to accompany you on a sea trial, we can join you aboard. If you'd prefer us ashore, we can look after your family or guests while you're out on the water. We can also safeguard business assets or personal belongings you leave ashore, by prior arrangement.

For overseas deliveries, we can provide discreet onboard security in coordination with the captain and accompany you and your guests to meet the yacht in the Mediterranean, Dubai, the United States or South Africa. We can adjust handover arrangements if the schedule shifts. Discreet close protection is available throughout your visit, journey or handover.

If you're planning a visit or handover, I'd be happy to speak privately about how BlackTor could support you, even if your dates are still taking shape.

Kind regards,
James Charlesworth
